## Continuing Competence Program for New Registrants

Participation in the CCP is a requirement of registration. If you registered with CRNPEI for the first time after November 1st, 2020 and have not yet started your CCP worksheet for 2021, you will find it very helpful at renewal time to have a CCP worksheet started. Otherwise, you will find yourself having to complete 2 worksheets at the time of renewal. Completing a CCP worksheet begins with reflecting on your Standards of Practice and Code of Ethics, and identifying learning objectives. It is important to choose **only 1 or 2 indicators** in total (not in each section) to focus on, so that the work of identifying learning objectives and learning activities doesn't become too cumbersome. Please contact us if you have any questions.

## Continuing Competence Program for Returning Registrants

When you renewed in September 2020, you completed a CCP worksheet for 2021. You can return to your worksheet throughout the year to update your learning activities, add completion dates, modify objectives, attach completion certificates (not required by the College), or complete your evaluation.
